Classic Iron

➤ Division Concept

- This division is to allow participants that want to challenge themselves with period weapons and if they want to, the period correct gear. There is no pressure to use the period correct gear however. Our hope is to see those participating in Classic to seek out the most correct firearms possible, but we understand that our laws can make sourcing the correct guns difficult. However please do your best to avoid handguns that have accessory rails. Accessory rails for the most part will be illegal for rifles.
- The year to build your classic division firearms should be built as it would be issued 1989 or earlier.
 - If you're unsure the firearm you wish to use in classic is legal please contact AATG for clarification.
- During matches, manual action and semi-auto participants will be classed as either Classic Irons manual or Classic Irons Semi.

➤ Carbine

ALBERTA ACTION TWO GUN

Revised 2019-12-01

Pistol Caliber Carbines

- PCC's will not have their own division, Your PCC will be slotted into the rifle division it most closely fits into. Examples would be a GSG MP40 9mm would fall into Classic irons while a Ruger PC9 with a red dot would fall into either patrol or patrol tactical (based on the participants handgun)
 - Minimum barrel length rules for divisions will not apply to a PCC
 - If your PCC uses the same magazine as your handgun you can carry 6 additional magazines and can be used between both firearms.
 - understand stages can have rifle targets at ~75m or longer and failure to engage them will incur the appropriate time penalties (AATG Rules and Conduct: 2.1.1, 2.2.1, 2.3.1)

All Division Gear Rules

- Holsters
 - The handgun holster must safely retain the handgun during vigorous movement. A semiautomatic pistol holster must completely cover the trigger and must cover the slide up to ½" below the ejection port. A revolver holster must completely cover the trigger and the cylinder.
 - Examples of legal Vs Illegals
 - Plastic/Kydex model-specific holsters (Safariland/bladetech/Custom) legal
 - Plastic multi-fit holster (Safariland 578 GLS) legal
 - Leather holster must be specific to the firearm to be legal
 - Shoulder holsters, SERPA type, cross draw, nylon multi-fit and "race" holsters are illegal.
 - SERPAs could be used in Patrol/Patrol tactical Division if the holster is part of issued equipment (LEO/MIL only)
 - All retention devices found in your holster must be used (SLS, ALS, GLS, thumb drive/break)
 - The holster must be firmly mounted to a belt or some kind of secure drop leg platform
- Magazines
 - Carbine
 - Any legal carbine magazine is legal for AATG (5, 10, 15)
 - A magazine is defined as one body, one spring, one follower. Magazines coupled, mounted, or otherwise fastened together count as 2 magazines.
 - Most stages will be set up for ~15 rounds, Topping up is legal
 - At most, a participant can legally carry six mags in total.
 - That includes the magazine in your rifle.
 - How spare mags are carried is variable but must be stored in a wrapped dedicated magazine pouch
 - Vest, Chest Rigs, "War" belts are legal in AATG
 - The use of pockets found on clothing can be used so long as the magazine is inside of the pocket and does not exceed the total limit
 - Dump pouches are legal

ALBERTA ACTION TWO GUN

Revised 2019-12-01

- Handguns
 - Any legal handgun magazine is legal for AATG (10)
 - Most stages will be set up for ~20 rounds, Topping up is legal
 - At most a participant can legally carry four magazines in total
 - That includes the magazine in your handgun.
 - How spare mags are carried is variable but must be stored in a wrapped dedicated magazine pouch
 - Vest, Chest Rigs, “War” belts are legal in AATG
 - The use of pockets found on clothing can be used so long as the magazine is inside of the pocket and does not exceed the total limit
 - Dump pouches are legal

➤ Ammunition

- For Patrol, Patrol Tactical, Limited and Classic only factory or commercial remanufactured ammo is legal in those divisions
 - Bi-metal/steel core ammo will be legal in a match by match ruling, based on the type of target used and distances in the match.
- Open Division personal reloads legal, as long as they meet the power factor.
 - Before each match, each open division participants will be required to Chrono all ammo
 - All ammunition used for AATG open division must meet minor power factor standard set out by IPSC for both rifle and pistol
- If any time an RO believes a participant to be using non-commercial ammo in patrol, patrol tactical limited or classic divisions, the RO can request for an immediate Chrono.
 - If the participant is to be found using personal reloads in the above divisions, the participant will be given an immediate match DQ and also be barred for one additional AATG hosted match.
- Illegal Ammunition
 - Any ammo containing tracer, incendiary, explosive, armour piercing, bare steel jacket or steel/tungsten/penetrator core projectiles is unsafe and prohibited.

➤ Division Placement

- Each firearm used by a participant will be reviewed at match start by a match official to verify it is legal for the division the participant has signed up for.
 - If a single part found on either of the participants firearms is not legal for the division they signed up for, they will be asked to remove it or be moved to the correct division.
 - Example: A muzzle break found on a rifle that was intended to be used in Patrol division, would move the participant to open division if the shooter was unable to swap it for a flash hider or use a bare muzzle.
